## PROJECT:

**TITLE :** Car Pooling.

**Description :** A carpooling project involves creating a platform or system that allows individuals to share rides in the same vehicle when traveling to a similar destination. The goal is to reduce traffic congestion, lower transportation costs, and minimize the environmental impact of individual commuting.

**TITLE :** Traffic sign detection and recognition

**Description :** The aim of a traffic sign detection and recognition project is to develop a system that can accurately identify and interpret various traffic signs from images or video streams captured by cameras. This technology assists in enhancing road safety by providing real-time alerts to drivers about speed limits, warnings, and other important information conveyed through traffic signs.
